

LAKE COUNTY 2050 Community Workshops

Lake County 2050, the update to Lake County’s General Plan and eight Local Area Plans (LAPs), is just getting started and we want your help to plan the future of Lake County!

Lake County 2050 will guide County decisions on land use, circulation, safety, natural resources, environmental justice, and other important topics through the year 2050. Join us for an upcoming community workshop to learn more about the project and discuss key issues in each LAP planning area. These workshops will be held as part of a meeting of the established advisory body for each planning area, as indicated below.

In-person meetings will feature small group discussions facilitated in Spanish.
